DOSM DATATHON 2026 SCORING RUBRIC

FINAL ROUND (LIVE PITCHING)

Total overall marks: 100%

This rubric is used to assess teams that qualify for the Final Round of DOSM Datathon 2026 through a Live Final Presentation session before a panel of judges.

Instructions to Judges: Please select a score for each criterion using the following scale:

Score	Rating
0–2	Poor
3–4	Adequate
5–6	Good
7–8	Very Good
9–10	Excellent

Session format

Component	Duration / note
Project presentation	10 minutes
Dashboard / product demonstration	Included within the presentation time
Question and answer session	5 minutes

C1. PRESENTATION & PROJECT MASTERY

Score: ____ / 10 | Weighting: 20%

Code	Criterion	Score
PJT1	The project is delivered clearly, in an organised way and is easy to understand.	___ / 10
PJT2	The team shows mastery of the problem, the objectives and the solution developed.	___ / 10
PJT3	The flow of the presentation is logical and keeps to the allotted time.	___ / 10
PJT4	The methodology and analysis results are explained confidently and professionally.	___ / 10
PJT5	Ability to answer the panel's questions accurately, convincingly and with evidence.	___ / 10

Contributes marks to Special Award: Pitching Excellence Award

Contributes marks to Special Award: Critical Thinking & Defence Award

C2. PRODUCT / DASHBOARD DEMONSTRATION

Score: ____ / 10 | Weighting: 25%

Code	Criterion	Score
DEM1	The dashboard / product can be presented and used smoothly during the live demonstration.	___ / 10
DEM2	Navigation, interactivity and user experience (UX) are clear and intuitive.	___ / 10
DEM3	Data visualisation supports the main findings and helps users understand.	___ / 10
DEM4	The layout is neat, professional and suitable for real-world use.	___ / 10
DEM5	The demonstration shows relevant product functions and adds value for the target users.	___ / 10

Contributes marks to Special Award: Pitching Excellence Award

C3. ANALYSIS QUALITY & JUSTIFICATION

Score: ____ / 10 | Weighting: 20%

Code	Criterion	Score
ANL1	The analysis presented is accurate, relevant and aligned with the problem statement.	___ / 10
ANL2	Appropriate selection of analysis methods and statistical models.	___ / 10
ANL3	Key findings are supported by data, evidence and strong arguments.	___ / 10
ANL4	The team can clearly explain the rationale behind its analytical decisions.	___ / 10
ANL5	The analysis shows critical thinking and produces meaningful insights.	___ / 10

Contributes marks to Special Award: Pitching Excellence Award

C4. IMPACT, EFFECTIVENESS & FEASIBILITY

Score: ____ / 10 | Weighting: 25%

Code	Criterion	Score
IMP1	The solution has potential for application in a real-world setting (government, industry or society).	___ / 10
IMP2	The product can help solve a real social, economic or operational issue.	___ / 10
IMP3	The implementation proposal, target users and organisational benefits are well explained.	___ / 10
IMP4	The solution has potential to be expanded, integrated or scaled in the future.	___ / 10
IMP5	The project is aligned with the DOSM Datathon 2026 theme and the relevant SDGs.	___ / 10

Contributes marks to Special Award: Pitching Excellence Award

C5. CREATIVITY & INNOVATION

Score: ____ / 10 | Weighting: 10%

Code	Criterion	Score
INV1	The solution approach is creative and non-routine.	___ / 10
INV2	The project's idea and concept are unique and have a clear identity.	___ / 10
INV3	The overall presentation is engaging, professional and makes an impact on the judging panel.	___ / 10
INV4	There are additional elements that give the project special value / a "wow factor".	___ / 10
INV5	Innovative and relevant use of technology such as AI, machine learning, geospatial or automation.	___ / 10

Contributes marks to Special Award: Pitching Excellence Award

Contributes marks to Special Award: AI-Driven Innovation Award

SCORING SUMMARY

Component	Weighting	Score
C1. Presentation & Project Mastery	20%	____ / 10
C2. Product / Dashboard Demonstration	25%	____ / 10
C3. Analysis Quality & Justification	20%	____ / 10
C4. Impact, Effectiveness & Feasibility	25%	____ / 10
C5. Creativity & Innovation	10%	____ / 10

Contributes marks to Special Award: Pitching Excellence Award:

Code	Criterion	Score
PJT4	The methodology and analysis results are explained confidently and professionally.	___ / 10
DEM1	The dashboard / product can be presented and used smoothly during the live demonstration.	___ / 10
ANL1	The analysis presented is accurate, relevant and aligned with the problem statement.	___ / 10
IMP3	The implementation proposal, target users and organisational benefits are well explained.	___ / 10
INV3	The overall presentation is engaging, professional and makes an impact on the judging panel.	___ / 10

Contributes marks to Special Award: Critical Thinking & Defence Award:

Code	Criterion	Score
PJT5	Ability to answer the panel's questions accurately, convincingly and with evidence.	___ / 10

Contributes marks to Special Award: AI-Driven Innovation Award:

Code	Criterion	Score
INV5	Innovative and relevant use of technology such as AI, machine learning, geospatial or automation.	___ / 10

JUDGES' NOTES:

OVERALL TOTAL: ____ / 50

WEIGHTED MARKS (100%): ____ / 100%
